

PRESS RELEASE

Besançon, 29 October 2014

IMAGINE final conference at the Future of Cities Forum

The final conference of the 'IMAGINE low energy cities' project will take place during the **fourth annual Future of Cities Forum, hosted by the City of Munich, Germany.**

The Future of Cities Forum: IMAGINE Regenerative Urban Development brings together mayors, city councilors, urban planners, researchers, practitioners and representatives of civil society and the private sector to discuss the key challenges and solutions in urban development.

Our world is in transition: By 2050, two-thirds of humanity will live in urban areas. Decisions made today by local authorities and national governments are critical in transitioning us to the future we would like to live in.

Let's ensure that these decisions secure decent livelihoods for all with more equity and social justice within the physical means of our planet.
